<b>Applications</b> .....	117
Applications in Mac OS X.....	117
Mac OS X applications.....	117
UNIX applications .....	119
Microsoft Windows applications .....	119
Installing applications .....	119
Where to install applications .....	119
How to install applications.....	119
Installation log files.....	120
Associating files with applications .....	121
How Mac OS X associates files with applications.....	121
How Finder handles file and application associations .....	122
Changing the default application associated with a file .....	123
Opening a file in an application other than its default application .....	125
Application preferences files.....	126
Preferences file locations.....	126
Preferences file names .....	127
Deleting application preferences files .....	127
Editing application preferences files .....	128
Troubleshooting applications.....	128
Is the problem specific to one user or all users?.....	128
Using the troubleshooting tables.....	129
Resolving common problems with applications.....	129
An application fails to launch .....	129
An application quits unexpectedly.....	130
Applications quit unexpectedly when printing .....	130
Multiple applications fail to launch or quit unexpectedly .....	131
Multiple Internet-related applications fail to launch .....	131
Applications are slow to launch or open .....	132
Some files open in the wrong application .....	132
Many or most files open in the wrong application .....	132
Applications’ preferences have been reset to default values.....	134
All users must register a previously-registered application .....	134
Application opens in Classic mode .....	134
Application does not open in Classic mode .....	135

An application is unresponsive .....	136
Multiple applications are unresponsive .....	136
Application will not install .....	137
System is slow or unresponsive during application installation .....	137
Reinstalling an application bundled with Mac OS X.....	138
Reinstalling an application that was preinstalled on your Mac.....	138
Preventing problems with applications .....	139
Finding new applications .....	139
Uninstalling applications.....	139
Related links.....	140
<b>Archive and Install</b> .....	142
Why use Archive and Install .....	142
Who cannot use Archive and Install .....	142
Caveats for Archive and Install.....	142
Performing an Archive and Install.....	144
Related links.....	145
<b>AVI and DivX Files</b> .....	146
About AVI and DivX files.....	146
Playing AVI and DivX files on Mac OS X.....	146
